## Crash Data Retrieval System

CDR® System Version 11.0 Software and Hardware

**BOSCH**  
Invented for life

New for CDR v11.0 is the beginning coverage for 2014 Mercedes-Benz vehicles along with the addition of a new CDR cable (F00K108800). And of course, new model year support for existing brands was added as summarized below. For more detailed information about the coverage added in this release, please refer to the *CDR Help File* which can be accessed from the Bosch Diagnostics website at <http://www.boschdiagnostics.com/testequipment/CDR/pages/CDRHome.aspx>.

  - Lexus IS 250 & 350
  - Scion iQ & tC

### New Hardware for CDR v11.0

- ▶ **Mercedes-Benz ACM 1 Cable - P/N: F00K108800**
  - Use this cable for imaging EDR data while directly connecting to certain 2014+ Mercedes-Benz vehicles. This cable is currently not included in any CDR kit so, you will need to order this cable separately.

### Minimum PC Hardware Requirements

To install and run the CDR software, your PC must meet the minimum hardware requirements listed below:

- Processor Speed: 1GHZ or faster
- RAM: 256MB or more
- Disk Space: 100MB or more
- Video Resolution: 1028 x 768 or higher
- 1 open USB port

### Supported Operating Systems

This version of CDR software is currently supported on the following US Windows® operating systems:

- Windows XP® (Home and Pro for PCs, 32 & 64 bit)
- Windows Vista® (32 & 64 bit)
- Windows 7® (32 & 64 bit)
- Windows 8® (32 & 64 bit)

### Software Compatibility with the CDR Interface Module

This software version is compatible only with the blue and green metal CDR interface module marked with a CAN plus logo on its label. Other versions of the CDR module (black plastic or blue units without the CAN plus logo) are not supported and can cause the software not to function as intended. To purchase a current CDR Interface Module (P/N: F00K108954), please contact your local CDR Sales Representative.

### Is Your CDR System Hardware Up to Date?

To take full advantage of this new software version, you need to obtain the new CDR Cables released for CDR version 11.0. You also need to make sure your CDR hardware is up to date. If your CDR Tool has not been updated recently, refer to the *Checklist for v11.0* which can be found on the Bosch Diagnostics CDR website located at <http://www.boschdiagnostics.com/testequipment/CDR/Pages/CDRHome.aspx>. Contact Bosch Sales and Support if you have any questions about the CDR products or you need to order new hardware or a software subscription.
