## Crash Data Retrieval System

CDR® System Version 15.0 Software and Hardware

**BOSCH**  
Invented for life

### What's new for CDR Version 15.0?

Bosch is pleased to announce the release of the new CDR 500 Adapter and version 15.0 software.

Refer to the *CDR Help File* for more detailed coverage information.

### New Vehicle Coverage

- ▶ Alfa Romeo (MY2015, US/Canada markets)
  - 4C
  
- ▶ Fiat (MY2015, US/Canada markets)
  - 500L
  
- ▶ Nissan (MY2015/2016, US/Canada markets)
  - 2015 NV Cargo & Passenger Van
  - 2016 GT-R
  - 2016 MICRA (Canada only)
  
- ▶ RAM (MY2015, US/Canada markets)
  - ProMaster® City

### New Hardware

- ▶ CDR 500 Adapter Kit (US/Canada markets)

P/N: 1699200114 - This new kit includes the new CDR 500 adapter and cables. It is needed when imaging EDR data directly from ECUs with FlexRay communications. Initially, applications such as the 2014+ Hardtop MINI

and 2015 BMW i3 & i8 require this adapter. In the future, other manufactures including Audi will also require the ICDR 500 for imaging EDR data directly from their ECUs.

- ▶ BMW ACM Cable (ID 807) for FlexRay ECUs

P/N: F00K108788 - Use this new cable to connect the BMW / MINI FlexRay ECUs to the CDR 500 adapter for direct-to-module EDR imaging.

### Minimum PC Hardware Requirements

To install and run the CDR software, your PC must meet the minimum hardware requirements listed below:

- Processor Speed: 1GHZ or faster
- RAM: 256MB or more
- Disk Space: 100MB or more
- Video Resolution: 1028 x 768 or higher
- 2 open USB ports (flash drive enabled)

### Supported Operating Systems

This version of CDR software is currently supported on the following US Windows® operating systems:

- Windows XP® (Home and Pro for PCs, 32 & 64 bit)
- Windows Vista® (32 & 64 bit)
- Windows 7® (32 & 64 bit)
- Windows 8® (32 & 64 bit)

### Software Compatibility with the CDR Interface Module

This software version is compatible only with the blue and green metal CDR interface module marked with a CAN plus logo on its label. Other versions of the CDR module (black plastic or blue units without the CAN plus logo) are not supported and can cause the software not to function as intended. To purchase a current CDR Interface Module (P/N: F00K108954), please contact your local CDR Sales Representative.

### Is Your CDR System Hardware Up to Date?

To take full advantage of this new software version, you need to obtain the new CDR Cables released up through CDR version 15.0. You also need to make sure your CDR hardware is up to date. If your CDR Tool has not been updated recently, refer to the *Checklist for v15.0* which can be found on the Bosch Diagnostics CDR website located at <http://www.boschdiagnostics.com/testequipment/CDR/Pages/CDRHome.aspx>. Contact your CDR Sales Representative if you have any questions about the CDR products or you need to order new hardware or a software subscription.
