Description:

Review

"Discover the wonders of cartography through very interesting mixed-media projects that get our hands dirty, and our minds alive to who we are. The projects found in *Personal Geographies* are interesting not only because of the quality methods that they teach, but because of the meaningful thoughts that they provoke." --**Jenny Doh/Crescendoh**

"Quite simply, the best book I have received for review in a very long time. It does what a great book is supposed to do: Inspire, inform, teach. Berry kept it personal, and at the same time included enough history to make it a true resource. The projects are terrific and there isn't a single dud.

That's something I say about once in a decade." --**Judi Kauffman**/*Scrapbooking & Beyond Magazine*/*Paper Creations Magazine*

"I was taken aback with the true uniqueness of *Personal Geographies*. There is truly no book out there like this. *Personal Geographies* takes readers on a journey of self-discovery by creating a series of different artistic maps. Those looking to expand their current artistic repertoire need to pick this up right away." --**Christen Olivarez**/**Editor-In-Chief, Director of Publishing**/*Somerset Studio*
