Description:

From the Author * Thinking about starting your own consulting business?

*** Need ideas to help grow your business?**

*** Not sure how to get clients or what rates to charge?**

*** Want advice from other top consultants?**

If so, then Successful QuickBooks Consulting is for you! After owning my own traditional accounting practice for about five years, I realized I did not really enjoy the work I was performing. I went back to school and earned an MBA in Entrepreneurship. Now, I am the owner of M. Long Consulting, LLC. Speaking, training, consulting, and writing are now my focus, and I could not be happier!!! I have been able to be my own boss, set my own work hours, and select the clients and type of services I want to provide. Most importantly, I have been home with my children while they are growing up! It is my hope that I can help share my knowledge to help others achieve the same in their lives! I truly enjoy helping others start and grow their own business as well as helping small and growing businesses to utilize QuickBooks to manage their business with good financial information.

Alison Ball, Sr. Manager, Accountant Training Network, Intuit, Inc.

"Sharing best practices is what Michelle Long does best -- whether it's teaching QuickBooks in the classroom or sharing her tips in this book. The best part is: Michelle actually practices what she preaches -- in her own consulting business. Michelle's guide is full of practical how-to's and is the perfect first step for anyone contemplating starting a QuickBooks consulting business."
