CDR® Tool Version 25.3 Software

BOSCH
Invented for life

What's New in v25.3? Over 100+ New Vehicles Supported!?

We are thrilled to announce the immediate availability of CDR Software Version 25.3! This significant update delivers a massive expansion of supported vehicles, extending your investigative capabilities to the very latest models across the globe.

In today's rapidly evolving automotive landscape, staying ahead means support for the newest vehicles on the road. CDR v25.3 ensures you can efficiently and accurately retrieve critical crash data from a wider array of newly released vehicles, allowing you to access crash data which is crucial for your reconstruction efforts.

CDR Next Generation Application (CDR2)

- CDR v25.3 installation program comes bundled with both CDR (Legacy) and CDR2 (Next Generation software). Both Legacy and CDR2 are installed when *CDR25.3Setup.exe* installation program is executed.

*For further information about using the CDR2 application, refer to the document named: [CDR2_Product_Information4.pdf](#). - this document is zipped into *CDR25.3Setup.zip* installation file.*

CDR 900 - This software version is compatible with the supported vehicle information in the product, provides coverage information regarding CDR 900 supported vehicles.

CDR 900 & VPN Compatibility - Due to the network-centric nature of CDR 900 VCI communication, direct CDR 900 connectivity is generally not supported or guaranteed when a Virtual Private Network (VPN) client is active or installed on the host PC.

CDR 500 - This software version is compatible with all CDR 500 units in the field.

CANplus – The CANplus device is no longer sold but can be rented through CDR Tool distributors. Bosch continues to support devices in the field and can be used on vehicles as defined in the CDR help file.

Is Your CDR System Hardware Up to Date?

To take full advantage of this new software version, you need to obtain the new CDR Cables released up through CDR Version 25.3. You also need to make sure your CDR hardware is up to date. If your CDR Tool has not been updated recently, refer to the Checklist for v25.3 which can be found on the Bosch Diagnostics CDR website located at <https://cdr.boschdiagnostics.com/cdr/>.

Contact your CDR tool distributor if you have any questions about the CDR products or need to order new hardware or a software subscription.
